

Network Goals

- Facilitate access to evidences related to the nursing disciplines through systematic scientific research in the fields of education, research, services and management
- Create and strengthen the teamwork spirit among nursing researchers and stakeholders
- Generate solutions to problems and issues of patient care in the field of nursing
- Determine national research priorities in the field of nursing in line with the needs of society
- Coordinate and converge research at the national level and prevent parallel operations and additional costs
- Collaborate with converging global research networks at the regional and global levels
- Improvement of quantitative and qualitative researches in the supported fields
- Increase the scientific capacity of nursing researchers and synergy in line with the network mission
